In one of the Grand Rapids churches
Sunday morning the minister an-
nounced that he recently asked one
of the church members why he had
not attended services lately and the
member replied that he had attended
regularly, but that he had had the
misfortune to sit behind a large hat
on several successive occasions. He
requested all the feminine portion of
the congregation to hereafter abstain
from wearing large hats to church and
to wear the smallest ones available.
The result of this request was that
about one-fifth of the women in the
seats promptly removed their hats
and sat with uncovered heads during
the remainder of the services.

During the week a number of the
Cappon & Berth tannery hands have
laid off, owing to extensive repairs,
principally on the boilers and boiler
outfit and the erection of a new chim-
ney or smokestack. The new structure
is a combination steel and brick stack,
72 inches in diameter and 132 feet in
height, 100 feet of which is lined with
circle fire brick. (The chimney that
toppled over a few years ago was 185
feet high.) These stacks are meet-
ing with much favor in the east and
large cities in the west, and take the
place of brick stacks. Besides their
own water system and main lead-
ing into Black Lake the company have
also connected their plant with the
city mains. They expect to start up
again on Tuesday morning.

An important railroad case is on
trial in the superior court at Grand
Rapids. It is the case of Mrs. Thomas
Doxtader against the C. & W. M., for
\$10,000 damages for the death of her
husband. He was a switchman in the
employ of the company at Grand Rap-
ids, ran his foot into a split switch,
was run down and killed. He was taken
to a hospital where the legs were
amputated and burned. It is charged
by the plaintiff that the shoe was an
important part of the evidence be-
cause it would show that the switch
was not blocked, and therefore dan-
gerous, and that the company caused
the shoe, feet and legs to be burned so
as to destroy the evidence.

G. H. Tribune: At the Grand Riv-
er Valley Soldiers Encampment to
be held here, June 13 to 20, Governor
Pingree, Col. Bliss and staff, and many
other men prominent in state G. A.
R. circles, will be present. There
is every reason to believe the encamp-
ment will be highly successful and
large numbers of old soldiers are ex-
pected here. It will be held at the
same place it was last year, which is
an ideal camp ground. Free busses,
free baggage delivery and handsomely
electric lighted grounds will be
provided. Plenty of good music will
be one of the features this year and
all that the committee in charge ask
for is plenty of good weather during
encampment week.

The new crop of bark is being mar-
keted, and last Saturday the first load
was brought to town.

The number of bicycles in this city
is estimated at 450, and this is no wild
guess either.

will be charged. All are welcome.

It was a pretty spring wedding that
took place on Tuesday evening at the
home of Mr. and Mrs. D. H. Clark, No.
11 W. Fifteenth street, when Rev.
Adam Clarke united in matrimony
their daughter Oda Mae and Edgar
Hiller, also of this city. The rooms were
neatly decorated in lilacs and green.
The bride was dressed in henrietta,
trimmed with pink silk and embro-
dered white chiffon, and carried white
and pink carnations. The groom was
dressed in the conventional black. Af-

FRIDAY, May 27.

Classification of Our Navy.

BATTLESHIPS.

Beginning at the top, in point of size, we encounter the battleships. In two classes, first and second. Both classes are of the same type, mighty floating fortresses, intended for taking and giving the heaviest blows in line of battle. Both are heavily armored, and highly equipped. Where, then, the distinction? Simply in the total weight, or what is technically termed the displacement. The first class battleship, like the Indiana, with the 10,525 tons displacement, are thus distinguished from the second class, like the Texas, with its 6,000 tons. Besides the sheer difference in total weight, the first class is, in general, larger, more heavily armored, and carries more or heavier batteries, more steam power, and more supplies.

UNPROTECTED CRUISERS.

First there is the simple, or unprotected cruiser, of which we have only three—the Detroit, Marblehead, and Montgomery—each a little over 2,000 tons. These, when first designated, were officially styled gunboats. But with their speed of over 18 knots an hour, and their strong batteries, they seemed to be worthy of the cruiser title. They have, however, no armor protection to their engines, magazines, etc. The simple cruiser has a deck of moderate plating, which extends from side to side, and from bow to stern, completely roofing over the "vitals." So far as possible coal is placed above this deck and against the sides as a bulwark against the attack of an enemy, and while coal remains there it forms a good defense against guns ranging from one-pounders to six-pounders. The armored shields borne by some of the guns, or the armor placed about some of the gun ports is not considered protection to the craft herself, and while either may be present on a simple cruiser, the fact that her vitals remain undefended makes her an unprotected cruiser.

PROTECTED CRUISERS.

The protected cruiser is the next advance upon the simple cruiser. Here, again, we have a deck, supplemented with a coat of mail. This armor presents a defective front to a shot passing through the sides and threatening the magazines and motive power. Again the coal is stowed along the sides above and below the deck, and a new defense in the shape of a band of cellulose stands ready to take the first shock of attack, and to plug automatically, by its own swelling, all shot holes admitting water. Of course, it is not proof against explosive shell, which may displace it, rather than merely pass through it. Of the protected cruiser type, the Olympia, Dewey's flagship, at Manila, is by long odds the most typical vessel in our service. Aside from her hull protection, the guns of her main battery, four eight-inch guns, are mounted in two turrets, an all-around shelter unequalled by any ship of like class, and size in the world.

ARMORED CRUISERS.

The armored cruiser, represented in our service by the New York and Brooklyn, is the protected cruiser bettered by slightly heavier armor on her protective deck, slightly heavier armor about her turreted guns, and the presence of a band of water-line vertical armor and plating of from three to four inches on her sides just above this heavy belt.

This water line armor is placed amidships, reaches fore and aft throughout the region occupied by the vitals. As can be seen, the armored cruiser is a larger and heavier protected version of the protected cruiser. She has great speed—in the case of the two vessels named, fully twenty-one knots, and she is as the old wooden frigate was, the next most formidable craft to a battleship. In battle, she may take her place in the

line, and bear with the slower but more powerful ships a fair share of the enemy's attack. In her special service will be to look up the enemy's armored cruisers—not battleships—or the larger of her protected cruisers, and give battle.

The armored cruiser is the cavalryman of the sea, and to them will fall that service demanding dash, force and quickness of execution.

GUNBOATS.

The "gunboat" was always and now is, the small vessel of moderate speed and gun power, unmarked for special service, by any peculiar characteristics of either offense or defense. With us the gunboat has a maximum displacement of 1,770 tons, and a minimum of 839 tons. Thus the cruisers begin at 2,000 tons displacement, where the gunboats leave off. The latter are confined usually to domestic service, the guardianship of merchantmen in our own waters, dispatch service, or picket duty for the heavier ships that must meet the foe in force and to a conclusion.

SPECIAL TYPES.

The modern monitor, with its slow speed, low, flat deck, and heavily turreted guns of highest calibre, and the tiny torpedo boat, with its high speed, and marvellous automobile missile, are distinct types. The monitor is not intended for long ocean cruises. The torpedo boats are of two classes, according to size, and in European navies are augmented by the larger and better armored torpedo boat destroyers. Finally there is the little dynamite cruiser, Vesuvius, alone in her glory of tossing gun cotton bombs out of pneumatic tubes.

OUR NEIGHBORS.

Lake Shore.

Fred Nichols and family are here from Kendrick, Idaho, on a visit. They may conclude to settle in Michigan again.

Chas. Ogden and wife went out to Salem to attend the wedding of the latter's sister, Miss Celia Richter, on Tuesday.

Mrs. Cora Aussicker took the train on Thursday for Petoskey, where John has an interest in the saw mill of Ogden & Ream.

Mrs. J. H. Chochran visited her relatives in Grand Rapids the fore part of the week.

Dell Dolph and family will return from north of Petoskey this week. Mr. Dolph's health is very poor and the doctors say that his chances are poor for a longer lease of life.

Ottawa County.

At Coopersville the D. & M. depot has been moved to the opposite side of the railroad track, which is a decided local improvement.

In the eastern part of the county potatoes are backward in coming up. John Dykema, and 18-year-old boy of Spring Lake, was adjudged insane in probate court and ordered taken to the Kalamazoo asylum.

In Georgetown the town board has appointed Herbert Alward, Richard Hammond and Henry Sweet peach yellows commissioners. They will look over the orchards as soon as the blossoms fall.

Rudolph Metzler, the Robinson township farmer who brutally abused a calf one day last week, was arrested again upon the charge of cruelty to animals and Justice Pagelson sentenced him to the county jail for ten days. A brother of Rudolph Metzler was heavily fined last winter for using indecent language. The family seems to bear an unsavory reputation.—Tribune.

On Memorial Day the G. A. R. Post of Nunica will decorate the soldiers graves at Ottawa Centre in the forenoon, and the afternoon will be devoted to exercises at home. Geo. W. McBride is the speaker.

The Odd Fellows hall at Coopersville is now being plastered and will soon be ready for occupancy. When finished it will be the finest society in the county.

Andy Falls of Spring Lake has shipped 10,000 bushels of potatoes from this section since last fall.

Matthias Stenbach's barn in Spring Lake was struck by lightning and burned with contents, excepting the horses and cattle. The loss is estimated at \$1,200; insurance, \$550.

Muskegon.

At the Hackley Public Library there is an increased demand for books on Cuba, Spain and naval science. Manila had no more than fallen when there came a rush for literature bearing on the Philippines. "Uncle Tom's Cabin" remains the most popular book in the library. There are six copies and they are out all the time.

A total of 28 of the 30 meat dealers of the city have agreed to keep their shops closed hereafter on Sunday, the new order to go into effect next Sunday. There were but two dealers who refused to enter into the agreement.—News.

Saugatuck.

Douglas Record: It has been ascertained by the official investigation that the accident to Bro. Wade's steam yacht in Holland a few weeks since was caused by his being so foolish to place both of his feet on one side of the boat.

The proposed electric railroad between this place and Holland will lay heavier rails than are used by the C. & W. M. R. Y. It will be possible for them to bring loaded freight cars from any road direct to this village, or to load cars here with fruit and send them east without transfer. In all respects the road will be as important to the town as a steam road and in many respects more so. The franchise requires a car to run between this place and Holland at least twice a day

every day in the year. The intention, however, is to run a car every hour during the summer season, and four cars a day in the winter time.—Commercial.

Saugatuck has a generous citizen in the person of A. W. Nysson. He has agreed to purchase a bell for the new Congregational church if the edifice is completed and free from debt the present year.

The Michigan fruit line steamer Bon Ami will make tri-weekly trips until the berries come, at which time the steamer Saugatuck will be put on the route, thus making a daily boat.

The barge Frank Woods of the Red Bottom line, which has been on the route between St. Joseph, Benton Harbor and Milwaukee in connection with the Graham & Morton steamers, arrived here last week and is being painted and repaired.

The steamer Bon Voyage, which has been sold to Duluth parties succeeded in descending the river and left last week for her new home.

The summer resorters are commencing to arrive at their cottages at Bald Head park.

Zeeland.

No exercises will be held here this year on Decoration Day.

Of the nine head of cattle that were killed in Achterhof's pasture last week six belonged to Achterhof Brothers, two to A. Lamar and one to P. H. Yser.

J. F. Thomas of South Bend, Ind., will succeed C. H. Cogshall as principal of our schools.

Rev. H. Freiling, missionary among the Indians in Arizona, arrived here Wednesday, and is visiting his friends in this locality.

Graafschap.

Laketown has purchased a half acre of gravel and proposes to improve the highways. The work has been begun in the village.

J. Buus is building a fine new residence on his farm.

Fillmore is the banner township for births during 1897. The increase in population was forty-one, there having been sixty-four births and twenty-three deaths.

Hendrik Kuipers, who was tried here in justice's court last winter for stealing a blanket and convicted, and who appealed his case, had his trial in the circuit court last week and was acquitted. He was defended by G. J. Diekema of Holland.

Mrs. J. Tinkholt is on the sick list.

Saturday being R. Bouws' 66th birthday, his neighbors gave him and his estimable wife a friendly surprise. They turned out in large number and took with them a handsome gift, which was presented in their behalf by the pastor Rev. Keizer with appropriate remarks.

Allegan County.

Dr. H. F. Thomas, who was notified last week of his appointment as ass't surgeon in the navy, is now waiting for orders to report at Washington, or to any other place to which he may be assigned.

Prisoners in the county jail were set to digging dandelions out of the grass on the court house square last week.

Capt. Townsend, U. S. A., in charge of Michigan harbors, has reported in favor of compelling the C. & W. M. to put a fifty foot draw in the bridge over the Kalamazoo river at New Richmond, and this report has been approved by the chief of engineers at Washington. It now goes to secretary of war Alger for his decision, which may be expected any day. If the draw is put in it will allow the steamer Klondike to go further up the river, perhaps as far as Allegan.

Gazette: Probable the largest judgment ever rendered in this court was given in the case of the Dime Savings bank of Detroit vs. George Mamerow, in assumpsit, on default. The amount was \$49,417.

The water in the river is quite low for this season of the year, and the Klondike, drawing 18 inches, touches bottom on the bars between Saugatuck and Richmond.

Many a husband imagines that his wife is happy, healthy and strong, when she is really enduring in silence almost unbearable tortures. She meets him at the door on his return from work or business with a smile and a kiss. To be sure, she looks a little white and pallid, but she is vivacious and cheerful in his presence, and he does not realize that anything is wrong. If he had but come home during the middle of the day, he would have found, instead of the cheerful wife, a weak, sickly, nervous invalid, with headache, pains in the back, "stitches" in the side, burning and dragging down sensations and utter despondency and melancholy.

In almost every case of this kind the woman is really suffering from weakness and disease of the distinctly feminine organism. Frequently she does not realize her condition. If she does, she shrinks from undergoing the "examinations" and "local treatments" insisted upon by the average physician. Dr. Pierce's Favorite Prescription is the medicine needed by women who suffer in this way. It acts directly on the sensitive organs concerned and makes them strong, healthy and vigorous. It allays inflammation, heals ulceration, soothes pain and tones and builds up the shattered nerves. It transforms weak, sickly, nervous, despondent invalids into happy, healthy wives and competent mothers. It fits for wifehood and motherhood. It makes "examinations" unnecessary. Honest dealers do not suggest substitutes for a little added profit to be realized thereon.

"I had suffered untold misery for years with ovarian trouble, an exhausting drain, constipation, painful periods and other annoying troubles," writes Mrs. Annie James, of No. 27 Seventh Street, Memphis, Shelby Co., Tenn. "Thank God, my health has been fully restored and I can gladly say I am a well woman to-day. I used six bottles of Dr. Pierce's Favorite Prescription and was completely cured."

Dr. Pierce's Pleasant Pellets cure constipation and biliousness. They never gripe. All good dealers have them.

The many friends of Gen. W. McBride, especially his army comrades, will be interested in the following correspondence of the Detroit Free Press: "Congressman Spaulding has secured a favorable report on his bill to authorize and direct the secretary of war to so amend the records of the war department as to remove the charge of 'mutiny, disobedience and defiance of orders and conduct unbecoming an officer and a gentleman' from the records of George W. McBride, late second lieutenant Company A., Fifteenth Michigan Infantry, and grant him an honorable discharge with all pay and other emoluments due him at the time of discharge from the services, Aug. 15, 1865. Mr. McBride, according to the report prepared by Representative Griffin, of Wisconsin, he was most unfairly and unjustly dealt with. The affair that caused the charge to be made against him, which resulted in his summary dishonorable dismissal from the army, occurred in a little town in Kentucky on July 3, 1865, after the war was all over and while McBride's regiment was on its way home to Michigan. Some of the Michigan boys and members of other regiments were having a good time and, perhaps, committed some indiscretions and, in consequence, were arrested and locked up. Because Lieut. McBride tried to secure the release of some of his men, who were in no way implicated, and was earnest in that effort, he was placed under arrest by an officious officer and charged with all the offenses before stated. He was hastily and unfairly tried by a prejudiced court martial, and his conviction and dismissal followed. Gen. Spaulding has worked hard to secure favorable action on the bill, and has spent much time in collecting evidence from the war department showing McBride's innocence."

A hard fight for the county seat is on in St. Joseph county. Sturgis and Three Rivers both want it and have agreed to build new buildings free of cost to the county. In case the county seat is secured, Centerville, where it is now located, wants to retain it. At the last election a proposition to raise money to repair the new dilapidated county buildings was voted down out of spite by the contesting towns.

All Druggists Keep It.

Centuries ago, people used to fear what they called the pestilence "Black Death" was the most terrible thing in the world to them. They feared it as people now fear the Cholera and Yellow Fever. And yet there is a thing that causes more misery and more deaths than any of these. It is so common that nine-tenths of all the sickness in the world is traceable to it. It is merely that simple, common thing constipation. It makes people listless, causes dizziness, headaches, loss of appetite, loss of sleep, foul breath and distress after eating. The little help needed is furnished by Dr. Pierce's Pleasant Pellets. One pill is a gentle laxative and two a mild cathartic. Once used, always in favor. If you are careless enough to let an unscrupulous druggist sell you something on which he makes more money, it is your own fault if you do not get well. Be sure and get Dr. Pierce's Pleasant Pellets.

Decoration Day, 1898.

The observance of May 30th as Memorial Day this year will no doubt be more national and on a broader plane, than ever before.

The tribute of respect to the memory of the defenders of the union may be rendered as lovingly as in former years, but the earnestness back of it cannot help but be intensified by the spirit and enthusiasm of the conflict in which the nation finds itself at present engaged.

While decorating the resting places of those that served in the Union army and navy during the War of the Rebellion, and strewing flowers in recognition of their fidelity to country, we are likewise reminded of the fact that a new generation, equally valorous and devoted, has shouldered the musket in defense of those same rights which a century ago, by Americans, were declared to be inalienable to mankind.

On Memorial Day this year every environment, and impulse, the very air we breathe, are all martial. To the quickening strains of our national anthems the aged veteran will again measure his steps with the fervor of old, while the youth of the land will catch the inspiration and inquire complainingly why his advent into life has been so tardy.

The shocking remembrance of the Maine has, for the time being at least, dulled and softened the horrors that accompanied the recollections of Andersonville and of Libby. The camp fires that are now burning at Chickamauga, are not a continuance of the bivouac of '63, and do not lure to heaven imploring vengeance upon fellow or brother. Neither are the cheers that were heard in the streets of Baltimore this week the echo of the riotous conduct of its citizens in April, '61.

Realizing all this the addresses this year, from pulpit and platform, will inevitably breathe a broader, a newer, a more direct patriotism. The appeal will be in part to the present. Not that the past will be forgotten, or ignored, but in remembering that past there will be a blending with the duty and the spirit of the hour.

In this city a union memorial service will be held on Sunday afternoon, in the Third Reformed church, commencing at three o'clock. The sermon will be preached by Rev. W. H. Van Antwerp, D. D., and the music will be appropriate to the occasion. The members of the G. A. R. and Veterans, Sons of Veterans, and Women's Relief Corps, will attend these services in a body. They are requested to meet at the Post hall at 2:15 p. m.

For the proper observance of Monday the executive committee has apportioned the labors connected therewith among our citizens and appointed the necessary committees, a complete list of which is here given:

WAR NOTES.

America is making history again, and making it fast. Think of the marked contrast to the reception given by the people of Baltimore to the Sixth Massachusetts regiment on April 19, 1861, when it was mobbed, and that given the same organization on Saturday, when it passed through Baltimore on its way South. A special invitation had been given the regiment to accept the hospitalities of the city, and the War Department graciously gave its assent. Elaborate preparations had been made for the reception. The streets through which the regiment was to be escorted were filled with people, and every house was decorated. The people had flocked to the station from all sections of the city, and the immediate neighborhood was so closely packed that the police experienced great difficulty in clearing the entrance to the streets. As the visiting soldiery appeared the enthusiasm was tremendous. No such scene has been witnessed in years. The visitors, who were plainly surprised by the cordiality of their reception, were marched up to the Plaza, where the mayor and a committee of citizens awaited their coming. Mayor Malster, in a speech referring to the reunited country, presented to Colonel Woodward, in the name of Baltimore and Maryland, an immense floral tribute in the form of a shield. Across the face of the shield are clasped hands, below is "Maryland to Massachusetts." On streamers extending from the basket are the inscriptions, "Baltimore welcomes the Sixth Massachusetts," "Flowers, not bullets." "God bless you and bring you safely home." Colonel Woodward made suitable response. They were escorted by con-

that count for much. To him the political aspects of such a disaster as happened to the "Maine" are altogether subordinate to its scientific and technical side, and it is safe to say that the findings of our board, as against those of the Spanish commission, would not be indorsed except after an exhaustive and impartial review of the evidence." In support of this statement the paper quotes extracts from several of the leading scientific journals of England, all sustaining the theory that the Maine was destroyed by an explosion from the outside. Says an old civil engineer: "Some of the French and Spanish engineers combat the torpedo theory by asking why no dead fish were found? In reply to this I would say that, if the torpedo was placed in close proximity or in actual contact with the ship, the explosion would have relieved itself by discharging the gasses through the ship, instead of producing the violent concussion of the water which is necessary to kill fish. It has also been said that little or no water was blown into the air. Very true. There was no water above the torpedo, the torpedo was probably in direct contact with the bottom of the ship, and when exploded it found vent through the ship, as being the direction of least resistance, it being remembered that, when these high explosives are employed, the inertia of the mass counts for more than the strength of the materials."

The disagreeable fact has been forced upon the naval strategists that the speed of the Spaniards gives him a tremendous advantage in every way except in a battle with a superior force. They are worrying over the problem of how to catch an enemy who can travel five miles faster than the speediest ships of the fighting squadron of Admiral Sampson. They are ready to fight the Spaniard and

should not ignore, and it is no reflection on any man's patriotism if he points them out. The war managers have found the national guards woefully deficient in arms, ammunition, uniforms and other equipments. The department is bending all its energies to remedying these deficiencies, but it takes time. It has established a supply depot at Chickamauga, and will soon have another at Washington. It finds the country is short on the modern arms adopted by the regular army. It finds difficulty also in getting rations promptly because of the unexpected emergency. Some of the Chicago packers even went so far as to unload cargoes of provisions that were intended for England. In foreign countries, where large standing armies are to be counted on all the time, there is always ample provision for meeting the demands of the soldiers. But not so in this country. There is a tendency to criticize the President and the war department for the slowness with which the volunteer army is being organized, but neither of them is to blame. When he issued his call for volunteers the President was assured by men presumed to understand the situation that the 125,000 men could be put into service within a week. Patriotism is a noble quality, but it should not be blind or unreasonable.

Gardener has ordered that all details for guard duty having done fatigue duty on the day before, are to be granted leave of absence of from 12 to 16 hours. He has also suggested to the company commanders that after dusk each evening they get their men to build a campfire and sit around it, sing national songs and tell stories, and thus cheer up those who are homesick.

Talk about the effect of patriotic songs and music. At the close of the war, a party of confederate officers entered a house in Richmond, Va., where a number of union officers were singing patriotic songs, and asked permission to remain and listen. The federals seeing their opportunity went through the whole list. They gave them "The Girl I Left Behind Me," "Just Before the Battle Mother," "Tramp, Tramp, Tramp," "Star Spangled Banner," and many others. At length one of the singers said "Let's touch them up on 'A Thousand Years.'" They sang it all, including the verse:

"Rebels at home! go hide your faces—
Weep for your crimes with bitter tears!
You could not blind the blessed daylight,
Though you should strive a thousand years.
"A thousand years, my own Columbia!
'Tis the glad day so long foretold,
'Tis the glad morn whose early twilight
Washington saw in times of old."

The 31st Mich. Infy., Col. Gardener, at Chickamauga, has not yet been equipped with arms. Says a camp correspondent: The boys were in high glee over getting flour, but the biscuits that resulted were of the cannon ball variety, and hard tack was resumed in preference. Col. Gardener came to the rescue and gave the cook a recipe which he guarantees will be successful. The colonel has also established a school for officers, devoting an hour every afternoon to them. Other regiments have been instructed to follow the example, as the majority of the officers need a good deal of coaching. The boys are most desirous of visiting Lookout Mountain, Missionary Ridge, the National cemetery and other points of interest. In order that all may be granted leave of absence, Col.

federates and union veterans, and marched through the same streets they did in '61. The incident is more remarkable, because it was on these very streets that the first blood in the war of the rebellion was shed, six of the regiment being killed by the mob.

It is gratifying, though not surprising, says the Scientific American, to note that the English technical press has given a practically unanimous indorsement of the finding of the naval court of inquiry on the "Maine" disaster. At a time when sentiment or prejudice is dominating men's minds and rendering them incapable of cool judgement, it is to the professional expert that we must look for opinions

believe he can be crushed, but the enemy has shown no disposition to fight. It is the popular thing for the amateur strategists, who do their thinking on dry goods boxes scattered about the country, to say the Spaniard has shown better strategy than the Americans, but that is nonsense. He has the advantage of speed, and no strategy can rob him of that so long as he persists in keeping miles away.

The invasion of Cuba will await two things—development in the naval situation and the proper equipment and organization of the volunteer army. The truth is that the army is in no condition for an immediate forward movement. There are a few plain but disagreeable facts that the country

has turned the tables on high price baking powders. The directions on High Price cans are the same as on Calumet cans, viz.: a teaspoonfuls to a quart of flour, but they say that one can of High Price will go three times as far as any other. Can any claim be more ridiculous? The frantic cry of adulteration, danger and poison made by the high price baking powder people is a blind to intimidate the public and induce them to pay fancy prices for their goods—also to divert attention from this defect in their own goods.

CAUGHT IN A TRAP

Believed at Washington That Spanish Fleet Is at Santiago.

Schley Is On Guard and the Enemy Cannot Escape Certain Destruction.

Officials Unable to Understand Why Cervera Allowed Himself to Be Thus Cornered.

Battleship Oregon Touches at Jupiter, Fla., and Sends Dispatch to Washington.

Lieut. Davis Says the Race Was a Most Exciting One—Marietta and Buffalo with Oregon.

Washington, May 25.—There seems to be no longer any doubt that the Spanish fleet now in Santiago harbor is hemmed in by Commodore Schley's squadron and that their escape is almost, if not quite impossible. Members of the cabinet are exultant over the news, and although they are not willing to make public the source of their information they regard it as perfectly trustworthy. They are not willing to state the exact position of Sampson's fleet, but do say that it is acting in concert with Schley and can come to his relief at any time should the situation require it. The published report that another and more formidable fleet is en route from Cadiz to the relief of the imprisoned squadron is not credited by members of the administration, but should this prove to be the fact the move would be welcomed by our naval authorities, as it would certainly result, it is said, in the destruction of the two fleets instead of one. It is authoritatively stated that the situation of Santiago harbor is such that our gunboats, which are available for the purpose, could successfully prevent the escape of the Spaniards, thus relieving a considerable part of both Sampson's and Schley's fleets for operations elsewhere. Members of the administration regard the present situation as most favorable for our cause, and do not doubt that in a very short time the Spanish fleet will be utterly destroyed and active operations begun against Havana and Cuba by both our military and naval forces.

Safe Arrival of Oregon.

The safe arrival of the Oregon at Jupiter inlet, Florida, is spoken of with great satisfaction by members of the cabinet. Capt. Clark, in his message to the secretary of the navy, reports his safe arrival there and says that he is in condition for immediate active operations at the front. Taken together the news of the day is highly satisfactory, and it is confidently expected that should the Spanish attempt to force a passage to sea the news of the total destruction of their fleet may be expected at any time.

A Most Exciting Race.

New York, May 25.—A special dispatch to the Evening World from Jupiter, Fla., says that Lieut. A. R. Davis, of the battleship Oregon, came ashore there late at night. "Our race," said Lieut. Davis, "was a most exciting one, and especially after we left Bahia, for we then knew of the possibility of interception. Capt. Clark, however, kept the little fleet in constant readiness and, had we run into the Spanish fleet we would have been heard from. As it is, we are all happy that our race from San Francisco is now ended, and that we will have a chance to take part with the fleets now looking for the Spaniards."

The Marietta and Buffalo are with the Oregon.

Confident, Yet Anxious.

Washington, May 25.—The question that agitated the navy department Wednesday morning was whether or not the Spanish squadron under Admiral Cervera is at Santiago de Cuba. The department hopes and believes it is, but so far is not in possession of accurate information on that point. The reason for this belief, so far as can be gathered, is that the Spanish squadron, when last heard from ten days ago, was in that harbor and that it has not been seen anywhere else, in spite of the fact that the scouting vessels of the navy fairly swarm in the West Indian waters and that the United States consuls on every island are on the alert to watch and report the movements of the Spanish fleet. The department officials, accepting the view that Cervera is in Santiago harbor, are of the opinion that he is likely to remain there for a long time, weeks and months perhaps.

Believed at Key West.

Key West, Fla., May 25.—There is nothing definitely known here about the possible operations in eastern Cuba, but the view is accepted at this place as a fact that the Spanish fleet is blockaded in Santiago harbor, in which event the naval opinion here is that the Spanish fleet has "committed suicide."

It is no breach of confidence to say that Commodore Schley and Rear Admiral Sampson are believed to have Admiral Cervera within their reach, and if the Spaniards are in Santiago harbor they can be blockaded and starved out. A single heavy American vessel can hold the harbor's narrow exit, through which the Spaniards could emerge only singly. The Spanish fleet is very fast, but it is not composed of heavily armored vessels. Indeed, any of Admiral

Sampson's battleships could, in the opinion of naval experts, engage the entire Spanish fleet with a fair chance of coming off victorious. The American commander has not only ships for battle, but for the chase as well. This is the view here, where the movements of the American fleet are approximately well known.

Among naval officers and people at Key West generally there is the most thorough confidence in the skill and energy of both the American commanders, and it is believed their triumph in West Indian waters is assured.

No Definite Confirmation.

Port au Prince, Hayti, May 25.—The report of the arrival of the Spanish Cape Verde fleet at Santiago de Cuba is correct. The correspondent here of the press has been able to obtain definite confirmation of this news, but up to the present time it has been impossible to obtain any details. The dispatches sent from here to Santiago de Cuba asking for information on the subject remain unanswered.

Deny That Cable Is Cut.

Kingston, Jamaica, May 25.—The West Indian and Panama Cable company denies that the cable lines from Santiago de Cuba to San Juan de Puerto Rico and Ponce have been cut. The company adds that Puerto Rico messages will be received.

Goes to Retake American Ship.

New York, May 25.—A special dispatch from Hong-Kong says that Admiral Dewey, at Manila, has sent the cruiser Baltimore and the little gunboat Callao, recently captured from the Spaniards, to Iloilo to retake the American bark Saranac. This vessel was seized by the Spaniards on April 24 at Iloilo, where she had just unloaded a cargo of 3,000 tons of coal, which was also seized by the Spaniards.

Hot Race After the Terror.

Chicago, May 25.—A special dispatch to the Journal from Washington says: The state department has received word that the Spanish torpedo boat Terror and the alleged hospital ship Alicante have left Martinique.

The information came from the United States consul at that point.

Secretary Long confidently expects the capture of both vessels. Orders were given to the Minneapolis and the Yale, which last week were at Curacao and it is believed by the department that these two fast vessels are now on the trail of the Spaniards and that they will either capture or destroy both. Either ship can outrun the Terror and there will be little trouble in their vanquishing it once they meet.

Word from Blockading Squadron.

On Board the Associated Press Dispatch boat Wanda, off Havana, May 24 via Key West, Fla., May 25.—The situation on the blockade from Cardenas east of Matanzas, to Mariel, west of the city of Havana, remains unchanged. The American squadron continues to maintain a strict blockade, and for the last five days there has been no fighting at any point and no incident worth noting except that one of the large cruisers fired three shots at a schooner off Havana on Sunday morning and brought her to. She proved to be an American vessel, and, after she had displayed her colors, she was permitted to proceed without there being anybody sent on board to examine her papers.

The light of Morro castle, which, it is supposed, has recently been burning at night for the benefit of the Cape Verde squadron under Admiral Cervera, was extinguished on Monday night and has not since been lighted.

There are no signs of military activity along the coast of the blockaded part of Cuba.

The lights of Cardenas are also extinguished. An American gunboat is lying off the entrance of that harbor near Diana key, and some of the cruisers are patrolling outside Matanzas harbor.

Situation at Madrid.

London, May 25.—The following dispatch has been received from Madrid dated one a. m., Wednesday: Nothing positive is revealed as to the situation Lieut. Gen. Correa, minister of war, has received a cablegram from Gen. Blance, saying that American warships are in front of Santiago. Capt. Annon, minister of marine, has received a lengthy dispatch from Admiral Cervera, replying in full to instructions. The minister of marine receives nobody. He is working day and night. Monday he presented to the queen regent every detail of the plans at Santiago de Cuba showing the defenses and the security of Admiral Cervera's squadron. Admiral Camara has gone back to Cadiz with sealed orders. It is said that on his arrival there he will arrange for maneuvers of his ships at sea, for trials of speed, gunnery and everything necessary to satisfy himself that the squadron is in efficient condition. He will depart for a destination undivulged. Senor Capdepon, minister of the interior, says a telegram received by the war office from Manila reports that the natives are disposed to remain loyal to Spain and will defend the territory against foreign invasion.

Daring Bridge Jumper.

St. Louis, May 25.—Kearney Speedy, known all over the country as a nifty bridge jumper, dived from the Merchant's bridge into the Mississippi river Wednesday and escaped unhurt. The distance was 128 feet, and the fact that the river was very high and running with driftwood made the feat a perilous one. Only three persons were present, one of them being a newspaper man.

Fire in a Paint Shop.

Milwaukee, May 25.—A Journal special from Stoughton, Wis., says: A fire early in the day destroyed two paint shops of the Stoughton Wagon company, including some finished stock. The loss will not reach over \$5,000, fully insured. The plant is running as usual.

Fire on Indian Reservation.

Victoria, B. C., May 25.—News reached here of a serious fire on the Cowichan reservation. One woman was burned to death and many buildings destroyed.

CALL FOR MORE TROOPS

President McKinley Issues a Proclamation Asking for 75,000 More Volunteers.

MAY BE NEEDED BEFORE WAR CLOSES.

Secretary Alger Says This Second Army Will Not Be Taken from National Guard—Over Two-Thirds of States Have Completed Their Musters on Former Call.

Washington, May 25.—The president Wednesday issued the following proclamation:

"By the President of the United States. A Proclamation. Whereas, An act of congress was approved on the 25th day of April, 1898, entitled 'An Act Declaring That War Exists Between the United States of America and the Kingdom of Spain,' and,

"Whereas, by an act of congress, entitled 'An Act to Provide for Temporarily Increasing the Military Establishment of the United States in Time of War and for Other Purposes,' approved April 22, 1898, the president is authorized, in order to raise a volunteer army, to issue his proclamation calling for volunteers to serve in the army of the United States.

"Now, therefore, I, William McKinley, president of the United States, by virtue of the power vested in me by the constitution and the laws, and deeming sufficient occasion to exist, have thought fit to call forth, and hereby do call forth, volunteers to the aggregate number of 75,000 in addition to the volunteers called forth by my proclamation of the 23d day of April, in the present year, the same to be apportioned, as far as practicable, among the several states and territories and the District of Columbia, according to population, and to serve for two years unless sooner discharged. The proportion of each arm and the details of enlistment and organization will be made known through the war department. "In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done at the city of Washington this 23d day of May, in the year of our Lord, one thousand eight hundred and ninety-eight, and of the independence of the United States the one hundred and twenty-second.

"WILLIAM MCKINLEY.

"By the President.

"WILLIAM N. DAY, Secretary of State."

Secretary Alger said that the additional volunteers called for will not be recruited from the national guard, as were the first 125,000, but that the enlistments will be open. The regulations referred to in the proclamation under which the enlistments will be conducted have not yet been prepared and it is thought that there is no occasion for hurrying in this matter until the full draft called for in the first proclamation has been secured. It is further stated that the decision to issue an additional call for volunteers was not reached until the cabinet meeting Tuesday afternoon. The call, it is supposed here, indicates a determination to press the campaign actively and vigorously from now on.

Present Volunteer Army.

Washington, May 25.—One hundred and twelve thousand men have now been mustered into the volunteer army of the United States, and the official reports show that the greater number of these are ready to move to the front. Over two-thirds of the states have entirely completed their musters, and, should the emergency arise, are prepared to begin anew the work just completed. The failure of some of the states, notably four or five in the south, to furnish the men called for up to this time, is a surprise to the army officers on duty here. It is not ascribed to a lack of patriotism, but to a belief, probably shared by many national guardsmen who had home ties and business connections which they could not well afford to give up, that plenty of other persons, not so encumbered, would readily be found to take their places. Ample time will be given the states referred to to fill the apportionment made by the war department, and the expectation here is this will be accomplished without unnecessary delay. Should any of the states default the probability is that the fact will be reported to congress formally by the secretary of war for such action as may be deemed best under the circumstances. No resort can be had to draft measures without explicit authority therefor from the national legislature.

Illinois Epworth Leaguers.

Bloomington, Ill., May 25.—A sunrise prayer meeting opened the second day of the Epworth league convention. The service was conducted by Alfred Dixon, of Chicago. Henry Bate, of Chicago, at eight o'clock conducted a Pentecostal service. Bible drill, "General Knowledge," by George W. Miller, was followed by a talk on Methodist publications by R. C. Jennings. An open parliament lasting one hour was conducted by Dr. Haven, of Boston, and Dr. R. Mills, of Elmira, N. Y.

Wife of Judge Crumpacker.

Albuquerque, N. M., May 25.—Margaret E. Crumpacker, aged 45, wife of J. A. Crumpacker, circuit court judge and associate justice of the territorial supreme court, died here after several months' illness. Mrs. Crumpacker came here from Laporte, Ind., with her husband last December when he received the appointment to the judgeship from President McKinley. The remains were sent to Laporte for burial.

Terribly Beaten by Robbers.

Madera, Cal., May 25.—County Treasurer Krohn was terribly beaten by robbers at 12:30 in the morning and the strong box of the county riddled of its contents by the robbers. The treasurer was found in an unconscious condition in his office shortly after midnight. He had been beaten about the face with a "billy" or sandbag, but was not fatally wounded.

Urinary difficulties, diabetes, bright's disease. Doan's Kidney Pills cure backache. Cure every one of kidney ills. Plenty proof that this is so. Read this:
Mr. John Kloosterman, two miles s.e. of Zeeland, says: "I am in my 70th year and for the last ten or twelve I have looked in vain for some medicine which would free me from distressing kidney complaint. I suffered at intervals during that period with aching pain through the loins, twings up and down the muscles of the back, irregular and unnatural condition of the kidney secretions and frequent attacks of dizziness. My son, John Kloosterman, tailor 155 east Eighth street, Holland, noticed Doan's Kidney Pills advertised in the Holland papers and highly recommended by people who had used them. Thinking they might help me he procured a supply at J. O. Doesburg's drug store and sent them out to me. I noticed shortly after I commenced the treatment that it was doing me good and as I continued, my condition improved. In my estimation Doan's Kidney Pills are by far the best remedy on the market."

NEEDS STRONG SUPPORT

Advices from Dewey Indicate Necessity of Sending Him Powerful Military Force.

WISDOM OF MERRITT'S DEMAND EVIDENT

Forty Thousand Troops Will Be Cheerfully Sent by the President—Foreign Cruisers at Manila Agree Upon Concerted Action for the Protection of Foreigners.

New York, May 25.—A special to the Tribune from Washington says: Official advices received from Admiral Dewey, while confirming the belief that his supreme control of Manila harbor is as firm as ever, indicate that the necessity for reinforcing him with a powerful military force is daily increasing, and is not safely to be delayed through any ordinary difficulties that may be encountered. Gen. Merritt's foresight in demanding 15,000 men for the first expedition, and securing the president's promise that 25,000 additional soldiers would be cheerfully furnished if they were required, is vindicated, in the opinion of military authorities, and throughout the day preparations to expedite the departure of the advance guard and to secure the necessary transports for the remaining force were aggressively hurried by the war department officials. The reference in Admiral Dewey's dispatch to the forces being organized by Aguinaldo has the effect of disturbing the equanimity of officials whose ideas of permanent occupation of the Philippines by United States forces have developed definitely in the last week, but the benefits to be gained through Admiral Dewey's amicable relations with the insurgents were clearly recognized.
No disposition, however, is manifested to place too much reliance in this sort of assistance after the discouraging experience with the Cubans, who were unable to fulfill the promises made in their behalf before hostilities began. A determination was expressed on all sides to make Admiral Dewey independent of all foreign assistance at the earliest possible time.

THEN GET UP AND FIGHT.

Spain is determined to prosecute the war to the end.—SPANISH MINISTRY.

Agree on Concerted Action.
London, May 25.—A dispatch to the Times from Hong-Kong says: "Manila is tranquil. The foreign cruisers have agreed upon concerted action for the protection of foreigners in any emergency."
Aguinaldo, the insurgent leader, landed at Cavite on May 13. The insurgents being without firearms is delaying the proposed attack on the garrison of Manila.

Good Story Denied.
Berlin, May 25.—It is semi-officially denied that there is any truth in the story from Manila regarding the German consul threatening Rear Admiral Dewey for not permitting the landing of provisions from German ships, it being claimed that the consul said he would land them with the aid of German cruisers, and that the American commander, in return, threatened to fire on the German warships if they interfered.

Insurgents Joining Spanish.
Madrid, May 25.—An official dispatch from Manila announces that the majority of the chiefs who took part in the last insurrection have presented themselves to the Spanish governor-general, offering their services to Spain. It is said here that the Spanish prisoners of war in the United States have again complained that they are treated as convicts.

American Vessel Released.
London, May 25.—A dispatch received here from Lloyd's agent at Manila, via Hong-Kong, says the American bark Saranac, Capt. Bartey, from Newcastle, N. S. W., on February 26, for Iloilo, Philippine islands, and which was captured shortly after the outbreak of the war by the Spanish gunboat El Cano, has been released. The Saranac took about 3,640 tons of coal to Iloilo, which is said to have been unloaded before she was captured. The coal was released some time ago. The Saranac is owned by William Simpson, Jr., of New York.

MILLIONS FOR PENSIONS.

Appropriation Bill to Supply Deficiencies Introduced in Senate—Carries Over Eight Millions.

Washington, May 25.—At 11 o'clock Wednesday morning the senate convened, an hour earlier than usual, to resume its discussion of the war revenue measure. Scarcely a dozen senators were present. Senator Hale (Me.) reported an appropriation bill to supply deficiencies in pensions and for other purposes. As reported the bill carries \$8,888,905, of which \$8,075,872 is for pensions and the balance for the army, navy and courts.
After a brief discussion of that feature of the measure which makes possible temporary appointments of clerks without civil service examination, it was passed. A joint resolution was adopted directing the secretary of war to report to congress plans for the improvement of Tampa bay, Fla.
After the transaction of considerable morning business, consideration of the war revenue measure was resumed. Senator Stewart (Nev.), taking the floor, Senator Stewart said he proposed to address himself particularly to those paragraphs of the bill which provided for the coinage of the silver seigniorage and the issue of legal tender notes. He held that the amount of money produced from taxation under the bill would depend largely upon the policy adopted relative to the issue of more money and the issue of bonds. He believed that with an issue of bonds it would require largely more taxation to produce a given sum than it would without an issue of bonds.

DEMAND MARTIAL LAW.
Lawlessness and Crime at Key West Makes Some Decisive Steps Necessary.
Key West, Fla., May 25.—An unknown man was found dead early in the morning in a yard within a half block of the Key West hotel. His face and head were bruised beyond recognition.

Troubles of a Pastor's Wife

This woman was peculiarly afflicted; physicians could do nothing to relieve her, yet she was cured in a simple way. She now sends a message to suffering humanity which should be helpful.

Probably no other woman ever suffered just as Mrs. Adams did, the wife of Rev. A. R. Adams, pastor of the Christian church at Blandville, Ill. Physicians were baffled by her ailment, and for years she was compelled to live a life of torture. To-day she is well and the story of her suffering and recovery will touch a responsive cord in the heart of every woman.
"About six years ago," said Mrs. Adams, "my health began to fail. The first trouble I noticed was with my stomach; food did not agree with me, and my appetite failed until I could scarcely eat.
"I would begin to bloat before I was through with a meal, and the food felt like a stone in my stomach.
"After eating I would have pains in my stomach with a smothered feeling which would finally extend into my throat and chest accompanied by a choking sensation.
"I began to bloat all over and my hands and feet commenced swelling until I thought I had dropsy.
"In a short time I had pain and soreness in my left side which extended across my back accompanied by dizziness, and then followed severe paroxysms of pain extending from the lower part of my stomach into the region of my heart.
"During these spells a hard ridge as large as my arm would appear in the left side of my stomach and around the left side.
"I had a feeling of heaviness in my head and at times could scarcely hold it up or keep my eyes open, yet when night came I could not sleep.

"I also suffered intensely from female trouble.
"I doctored with ten different physicians, but was not benefited. No two of the doctors diagnosed my case the same.
"One day my husband noticed an article regarding Dr. Williams' Pink Pills for Pale People in the newspaper, and induced me to try the pills.
"I began taking them, but experienced no relief until I had used the sixth box. I continued taking them and after using eleven boxes was greatly benefited.
"I was also troubled with nervous prostration and numbness of my right hand and arm. My hand hurt so at times, tingling and burning, that I could hardly endure the pain, but that has all passed away.
"I now know what it means to eat a good meal without suffering afterwards, and enjoy a good night's rest.
"I am again able to do my work, and have done more this summer than in all the last four years put together.
"I feel safe in saying that it is all due to Dr. Williams' Pink Pills for Pale People, and consider it my duty to let people know what these pills have done for me, as it may be the means of relief for others who are suffering."
Diseases strange to physicians; symptoms that defied diagnosis, have succumbed to the potent influence of Dr. Williams' Pink Pills for Pale People. Druggists everywhere consider them to be one of the most valuable remedial agents known to science.

Friday's Grand Rapids Democrat has an interesting letter written by Fritz Morris from Rotterdam, Netherlands, from which we take the following:

"Maas Hotel, Rotterdam, May 2.—As I sit here at my window in this handsome hotel, gazing across the Boompjes on to the silvery Maas, at the shipping beyond, the scene before me so strange, so animated, so picturesque I am forced to ask myself a simple question, Why are we Americans so like a flock of sheep? It is the fashion to go abroad, to go to Paris and London, perhaps to Switzerland or the Riviera, and nine-tenths of those who come across the seas go to those places and return home satisfied that they have 'done Europe.' Not ten in one hundred, I might almost say not one in one hundred, comes to Holland, yet it is as easy of access as London or Paris; it costs less, the trips are as pleasant, yet people don't come because it is not yet the fashion. But it will be ere long. The fine steamers of the Holland-American line pick you up in Hoboken and put you down in Rotterdam or Amsterdam. Arrived here you are veritably in a foreign land. It is not like Liverpool or Southampton, where the same tongue is spoken, the same people surround you, the same ideas prevail. Here in Holland, everything is new, novel and interesting and the people do not try to rob you from the moment of setting foot upon their soil. "Of course I can tell you no war news from here, but I can tell you that every foreigner with whom I have spoken seems utterly unable to comprehend what we are fighting for. The Cuban question is a closed book to them and to make war for 'humanity's sake,' something against all business principles, is an act of insane folly. " "

A vacancy in the United States military academy at West Point will exist from the Fifth congressional district of Michigan in June 1899. With a view of making the appointment to fill this vacancy Congressman Wm. Alden Smith has issued a notice for a competitive examination, which explains itself:

"Under the provisions of section 1, 317, revised statutes of the United States, an appointment to fill such vacancy must be made one year in advance of admission to the academy. The secretary of war has requested me to nominate a suitable person for appointment on or before July 1 next. In accordance with the custom that has obtained in this district, I hereby invite all persons properly qualified, between the ages of 17 and 22, desiring to enter into competitive examination therefor, to appear before a board composed of the following citizens of this district: For the physical

examination, Dr. O. R. Long of Ionia, Dr. O. E. Yates of Holland, and Dr. J. B. Griswold of Grand Rapids; for the mental examination, Prof. W. W. Chalmers of Grand Rapids, Senator William Savidge of Spring Lake, and Capt. E. M. Allen of Portland, Ionia county, at the Morton house, Grand Rapids, Mich., on Monday, the 27th day of June, 1899, at 11 o'clock in the forenoon. The person receiving the highest standing, physical and mental, in the estimation of the board, will be nominated for the vacancy."

Died at the home of her brother, Prof. D. B. Yntema, east of the city, on Thursday morning, Miss Suzan Yntema, aged 58 years. Of late her health had been very poor, and during the past few days she had been failing fast. The deceased was the only remaining daughter of the late Hessel O. Yntema, one of the pioneer settlers of Vriesland. Although of a retiring disposition she took a deep interest in mission work and in her own modest way done a great deal of good. The funeral will take place on Saturday, at 2:00 p. m., from the home of Prof. D. B. Yntema.

The Sons of Veterans in this state have not yet abandoned the idea of organizing a full regiment from among their number. With this in view they have divided the state into twelve sections, each section to raise one company. Kent county constitutes the first district, and Muskegon, Newago, Oceana and Ottawa the second.—Since the above was put in type President McKinley's second call has appeared, and from now on everything pertaining to volunteering will be of a more practical nature. An impromptu meeting of the War Committee was held Thursday morning at which Mayor Mokma was at once requested to notify Gov. Pingree that Holland was ready for a company and awaiting instructions. Up to the hour of going to press no reply to this had been received.

In a special from Washington the G. R. Herald has the following: "Realizing that there is to be no river and harbor bill at this session, Representative Hamilton has set himself to work to secure the incorporation of an item in the general deficiency bill, now pending in the senate, making an appropriation of \$15,000 with which to tide over the recess and keep the work progressing on certain harbors of his district until a regular river and harbor bill is passed next winter. The harbors referred to are Saugatuck, South Haven and St. Joseph. Mr. Hamilton has secured the aid of Chairman Hooker of the river and harbor committee, and others who have influence in that direction, and has strong hope, based upon assurances from some members of the senate committee on appropriations, that his item will go into the bill."

Thursday evening Rev. Wm. De Jonge was duly installed as pastor of the Fourth Reformed church of this city. The occasion brought out a large audience, and the clergy from this city and vicinity was also well represented—Revs. A. Zwemer, G. H. Dubbink, A. Stegeman, C. A. Ziegeler, J. Puppen, and Prof. J. W. Beardslee. The sermon was preached by Prof. H. E. Dosker, Rev. J. Scholte read the form, Rev. J. Van Houte welcomed the new pastor, and Rev. C. C. A. L. John addressed the congregation. The Fourth Reformed church is the youngest religious society in Holland. It was organized in March, '96, owes its existence to the recent growth of the west part of the city, and is already possessed of a neat church and commodious parsonage. The new pastor graduated this year from the Western Theol. Seminary, having finished his literary studies in the Netherlands.

Remarkable Rescue.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New discovery for Consumption, she bought a bottle and to her delight found her benefited from first dose. She continued its use and after taking six bottles, found herself sound and well, now does her own housework and she is as well as ever was. A man's health is the rope by which he climbs to success. If he can keep his health he will go on to success. Yet his health, is the very thing he neglects more than anything else. It is easier to keep health than it is to regain it. When a man feels himself running down, when he realizes a loss of vitality and energy, he must call a halt. The strands of his rope are parting rapidly. Dr. Pierce's Golden Medical Discovery has helped thousands of men in just that condition. It makes health, it makes pure, rich blood, it forces out impurities and kills germs. It doesn't make any difference what name you call you trouble by—dyspepsia—kidney disease—rheumatism—consumption—skin disease, the "Golden Medical Discovery" will cure it absolutely. None of these diseases can retain hold on the body when it is full of rich, pure blood.

Columbus' Marriage.

The reason why Christopher Columbus has not yet been numbered among the saints may not be generally known. It seems that his beatification has been urged for centuries, but has never been decreed because his marriage certificate could not be procured, and consequently his wedded life, he leaving a son (Diego), was considered concubinage. Now that the Congregation of Rites has recently discovered the missing certificates, all obstacles are removed, and ere long we may hear of "Christopher Columbus beatus."
